DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 1-15 are rejected under 35 U.S.C. 102(a) as being anticipated by McGregor (IPMP draft-mcgregor-ipmp-00.txt).

Regarding claim 1, 6 and 11, McGregor teaches a method for performing a measurement in a network comprising: creating an Internet Protocol Measurement Protocol (IPMP) packet by a measurement host; including in the IPMP packet instructions for a recipient of the IPMP packet (3.1 in page 10), said instructions including an instruction to a recipient to insert any additional data desired by the recipient in the IPMP packet when forwarding the IPMP packet (optional Performance Data in Page 6).

Regarding claim 2, 7 and 12, McGregor teaches encapsulating the IPMP packet in an Internet Protocol (IP) datagram and a predetermined link layer protocol (3.1 in page 10).

Regarding claim 3, 8 and 13, McGregor teaches sending the IPMP packet into the network from the measurement host (3.1 in page 10).

Regarding claim 4, 9 and 14, McGregor teaches the additional data includes traffic levels (optional Performance Data in Page 6 and the last paragraph in page 2).

Regarding claim 5, 10 and 15, McGregor teaches the additional data includes environmental data, weather data or other information that may impact communications link performance (optional Performance Data in Page 6 and the last paragraph in page 2).

Response to Arguments

3. Applicant's arguments filed July 19, 2007 have been fully considered but they are not persuasive. In response to page 2, the applicant argues that McGregor does not teach "including in the IPMP packet instructions for a recipient ... to insert any additional data desired by the recipient in the IPMP packet when forwarding the IPMP packet".

Providing a specific field for the recipient to insert performance data itself is the instruction for the recipient to insert additional data.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
